

Stand-offs
Some distance ahead

BOSSARD

Stand-offs – ideal and easy to mount

Internal and external threads

Steel, copper or plastic

**Specially suited to the assembly
of circuit boards**

Stand-offs – standard items

Hexagon stand-offs with internal and external thread

● BN 3318

Steel, zinc plated

● BN 3321

Brass, nickel plated

Custom-made models

Stand offs and spacers according to customers' drawings can be delivered within a short time.

Tip for fixing circuits boards

The combination of stand offs with eco-fix® screws gives a vibration-proof assembly.

Oversize hole tolerances can easily be covered.

Selection criteria

	Material / surfaces	Properties
Stand offs	steel, blue zinc plated	– electrically conductive
	copper, nickel plated	– electrically conductive
		– non-magnetic
	plastic	– electrically insulating
Spacer rounds	PA (Polyamide) GV, black	– max temperature around 110° C
	plastic	– electrically insulating
	PA (Polyamide) 6.6, white	– max temperature around 80° C
