ZERO-M05

Anodized Black with Aluminum Design
Cool the SSD & Safeguard your Data

SMALL YET MIGHTY

The compact form ensures compatibility
with a wide range of systems.

LITTLE YET POWERFUL

The hollowed aluminum material increases the heat dissipation area for optimal performance. Keeping your SSD cool all the time.

TINY YET CONVENIENT

Say goodbye to complicated setups! The Installation is very simple and makes cooling easier for you.

MINI YET VALID

With double-sided thermal pads, it ensures efficient cooling from both sides of your SSD.

COMPATIBILITY

It precisely designed to fit both single and dual-sided SSDs.
