

Product Change Notification

Product Change Notification Number: SC022301

Date: 06/04/02

Title: Migrating AT17Cxxx parts to AT17LVxxx parts

Product Identification: AT17Cxxx

Reason for Change:

<input type="checkbox"/> Design	<input type="checkbox"/> Processing	<input checked="" type="checkbox"/> Logistics
<input type="checkbox"/> Manufacturing Location	<input type="checkbox"/> Quality/Reliability	<input type="checkbox"/> Material

Change Description:

To improve product availability and allow Atmel to better serve its customer base, Atmel will consolidate FPGA Configuration EEPROM product offerings. The Changes are essentially transparent to the user in that both reflect an enhancement to the usability of the product, while not affecting product functionality.

Customers who previously purchased standard voltage "AT17Cxxx" (4.5V to 5.5V) will now receive "AT17LVxxx" product with an expanded voltage range (3.0V to 5.5V).

All the ordering codes for FPGA Configuration EEPROM (AT17) will now be AT17LVxxx with expanded voltage level of 3.0V to 5.5V.

Identification Method to Distinguish Change: Parts are designated "AT17LVxxx" instead of "AT17Cxxx".

Qualification Data: available will be available in WW____ **not applicable**

Samples: available **will be available in** <http://www.atmel.com/atmel/samples/>

not applicable

PPAP Notification: required **not applicable**

Quantifiable Impact on Quality & Reliability: N/A

Estimated Implementation Date*: June, 2002

Sample Available: June, 2002

Last Time Buy Date: October 31, 2002

Last Ship Date: December 31, 2002

*The Estimated Implementation Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.
